

EFSD and JDS Reciprocal Travel Research Fellowship Programme

The Japan Diabetes Society and EFSD will be able to introduce the following organizations for accepting researchers from Europe and Japan.

as of March, 2020

	Organization	Department	Address	Contact	E-mail address	Research contents
1	The University of Tokyo	Department of Diabetes and Metabolic Diseases, Graduate School of Medicine	7-3-1 Hongo, Bunkyo-ku, Tokyo 113-0033, Japan	Masato Iwabu MD, PhD	iwabu-ky@umin.ac.jp	Comprehensive research of the universal metabolic regulation mechanisms for healthspan
2	Kyoto University Graduate School of Medicine	Department of Diabetes, Endocrinology and Nutrition	54 Kawahara-cho, Shogoin, Sakyo-ku, Kyoto 606-8507, Japan	Nobuya Inagaki MD, PhD	tounaiei@kuhp.kyoto-u.ac.jp	Islet biology, Incretin, Insulin secretion
3	Diabetes Research Center, Research Institute, National Center for Global Health and Medicine	Department of Molecular Diabetic Medicine	1-21-1 Toyama, Shinjuku City, Tokyo 162-8655, Japan	Kohjiro Ueki (Director of Diabetes Research Center)	uekik@ri.ncgm.go.jp	Ongoing research projects are follows: 1. Mechanism of sarcopenia in diabetes using knockout mouse models. 2. Role of Activin B in the regulation of glucose homeostasis. 3. Mechanism of NASH and hepatocellular carcinoma in diabetes. 4. Role of noncoding RNAs in the regulation of insulin sensitivity and glucose homeostasis. 5. Role of insulin signaling in pancreatic β cells.
4	German Diabetes Center and Division of Endocrinology and Diabetology Heinrich Heine University Düsseldorf		c/o Auf'm Hennekamp 65, 40225 Düsseldorf, Germany	Prof. Dr. Michael Roden	michael.roden@ddz.de	Endocrinology and Metabolic Diseases
